

# SYSTEM CHANGE | S60 Multi-Link System

| DESCRIPTION.     | UPDATED SYSTEM  | CHANGES MADE                        |                                     |
|------------------|---|-------------------------------------|-------------------------------------|
|                  |   | YES                                 | NO                                  |
| DESCRIPTION.     | S60 Multi-Link System   | <input type="checkbox"/>            | <input checked="" type="checkbox"/> |
| IMAGE.           | <p>1. Idler End Bracket<br/>2. Idler<br/>3. Intermediate Receiver<br/>4. Intermediate Bracket<br/>5. Intermediate Drive</p> | <input checked="" type="checkbox"/> | <input type="checkbox"/>            |
| PRODUCT OPTIONS. | Single, Combo, Fascia, Adjustable Bracket   Non-Adjustable Bracket, 60mm   80mm   | <input type="checkbox"/>            | <input checked="" type="checkbox"/> |
| TRANSITIONING.   | <b>NOW</b>  |                                     |                                     |

## IMPROVEMENTS / CHANGES

### FUNCTIONAL IMPROVEMENTS / CHANGES

- Noise reduction from material change:  
Bushing change from hard plastic to softer plastic
- Noise reduction from design change:  
Updated drive bushing shoulder reduces knocking effect due to geometry of parts  
Receiver component changed to have a tapered end to reduce play between parts  
Idler End bushing changed from a hex to a tapered cylinder to fit with new rounded Idler End shaft

| CHANGES MADE                        |                          |
|-------------------------------------|--------------------------|
| YES                                 | NO                       |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |

## COMPATIBILITY MATRIX

### IDLE END

|       |     | 2. Idler End Bracket |     |
|-------|-----|----------------------|-----|
| 1.    |     | Old                  | New |
| Idler | Old | Yes                  | No  |
|       | New | No                   | Yes |

### INTERMEDIATE

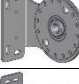

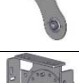

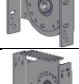

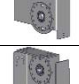

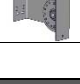

|                       |     | 4. Intermediate Bracket |      |
|-----------------------|-----|-------------------------|------|
| 3.                    |     | Old                     | New  |
| Intermediate Receiver | Old | Yes*                    | Yes* |
|                       | New | Yes*                    | Yes  |

|                       |     | 5. Intermediate Drive |      |
|-----------------------|-----|-----------------------|------|
| 3.                    |     | Old                   | New  |
| Intermediate Receiver | Old | Yes*                  | Yes* |
|                       | New | Yes*                  | Yes  |

|                      |     | 5. Intermediate Drive |      |
|----------------------|-----|-----------------------|------|
| 4.                   |     | Old                   | New  |
| Intermediate Bracket | Old | Yes*                  | Yes* |
|                      | New | Yes*                  | Yes  |

Yes\* - Functional but not silent version
