Kleenscreen Blackout
ROLLER **PANEL**

Kleenscreen Blackout combines the functionality and durability of a typical solar screen with the privacy of a 100% blackout fabric. The unique formulation of the yarn eliminates the need for a blackout coating, thereby keeping the blackout fabric the same on both sides and making it highly suitable for open roll systems. Featuring Sanitized®, Kleenscreen Blackout inhibits the development of bacterial odors as well as the growth of mold and mildew on your fabric. Easy to weld and easy to clean, Kleenscreen Blackout provides a practical solution for any residential or commercial interior space.
